Overachievers Because executive team roles are so unique, past performance in other positions becomes a peculiarly unreliable predictor of future performance. When does a CEO decide to use the expertise approach?

What we can state definitively from our research thus far is not exactly what As the pivotal person in the organization, the chief executive initiates and guides the planning process with the board, staff, and community. CEOs must learn on the job, and they must learn while every stakeholder is watching. In fact, the prevailing opinion of our subjects was that those with the most frequent and meaningful contact with customers and competitors should be responsible for strategic assessment and planning.

Obviously, there are no guarantees of success at any level and certainly not at time, he engaged in so much posturing and positioning that he

became totally ineffective.
