Planon has implemented its comprehensive solutions for over 2, clients, supported by offices around the world. It brings together a set of several software which propose the main functions of: modeling, costing, calculation, cabinet layout and schematics to manage and optimize a complete project in a BIM process.

The floor plans provide visual inventories of office furnishing and equipment. The Trimble Constructible process integrates the complete building lifecycle to manage construction activities and team collaboration and improve overall productivity. Biotopia supports all companies that directly or indirectly address the organic market, meeting all their challenges from data to marketing. The BIM resulting from our 3D measurement facilitates the management of complex monuments and allows

diagnostic and preservation of historical buildings, in the context of restoration project, conservation studies, project management and maintenance.

Overleading product manufacturers worldwide have been relying on EnOcean have BIM projects? Kabandy gets rid of the hassle of managing properties by turning BIM into a real productive asset for your company.
